

Disclaimer : This is personal program please use it at your own risk.

For better experience "Auto Hide Windows Task Bar"

Steps: (Tobii i12+ ONLY)

1. Download file and unzip the file My Draw.zip from below link

https://drive.google.com/file/d/1vh_IvhSyp3mJKUEUtJdzDacqL2pwOBpS/view?usp=sharing

The My Draw.zip file has below two

- My Draw JS Splatter (Communicator 5 .cddx file)
- Drawing_Horz (Program Folder)

2. Copy the "Drawing_Horz" folder and its contents to

C:\Program Files\Drawing_Horz\

Ensure that the location is like this for file "my-electron-app.exe"

C:\Program Files\Drawing_Horz\my-electron-app.exe

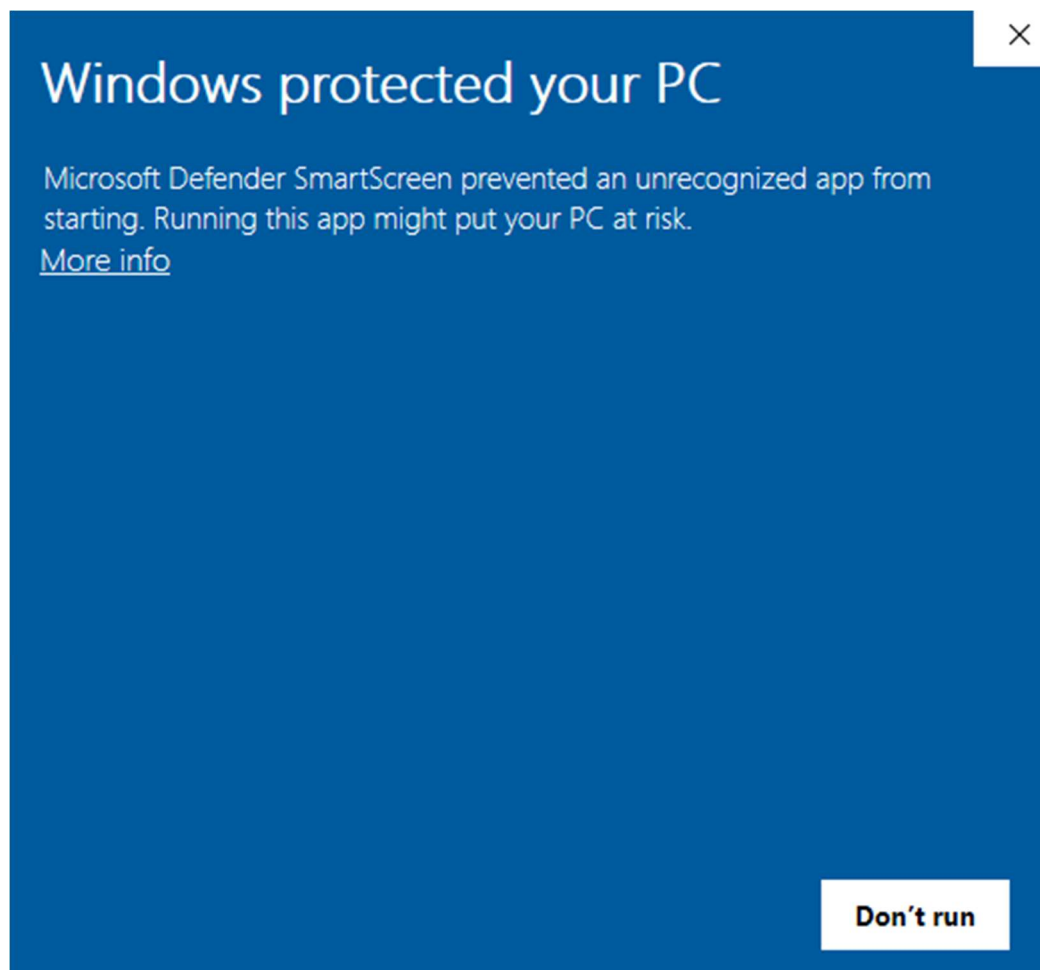

This because the Communicator "My Draw JS Splatter" (.cddx file) from the Page Load Actions opens this file, as a canvas for drawing.

3. Run this program "my-electron-app.exe" for testing and if see any screens as blue as mentioned in "APPENDIX" "Press More Info" and Press Run or Run anyway.
4. Close "my-electron-app.exe" by Right click on the Task Bar Icon
5. Open "Communicator 5", You create a link on your home page of Communicator 5 to this "My Draw JS Splatter" (.cddx file)

6. Select "My Draw JS Splatter" and Enjoy. I hope it works, but I cannot guarantee.

APPENDIX:

If you see below screen "Press More Info" and Press Run or Run anyway

> SmartScreen can't be reached right now

Check your Internet connection. Microsoft Defender SmartScreen is unreachable and can't help you decide if this app is ok to run.

Publisher: Unknown Publisher
